20 Interesting graphs from Ramsey Theory

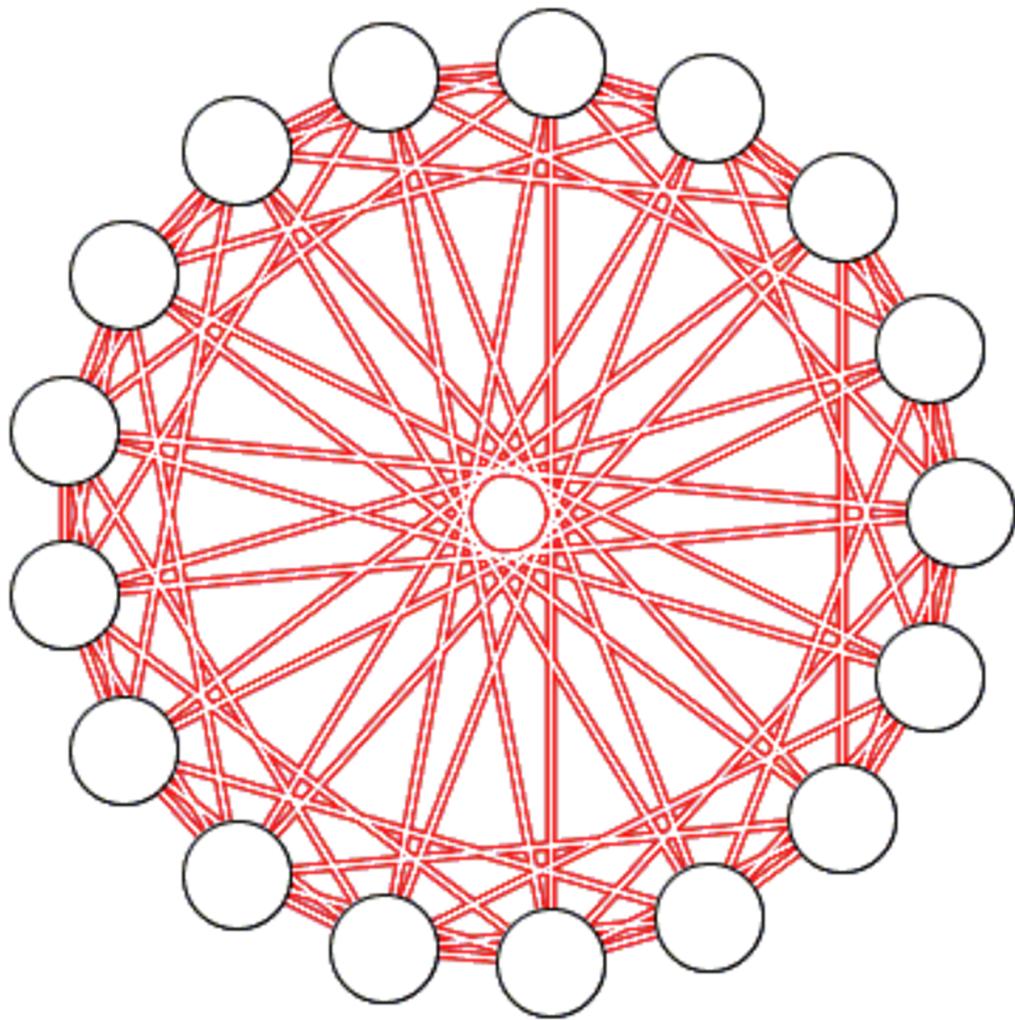

SUPPOSE ALIENS INVADE THE EARTH AND THREATEN TO OBLITERATE IT IN A YEAR'S TIME UNLESS HUMAN BEINGS CAN FIND THE RAMSEY NUMBER FOR RED FIVE AND BLUE FIVE. WE COULD MARSHAL THE WORLD'S BEST MINDS AND FASTEST COMPUTERS, AND WITHIN A YEAR WE COULD PROBABLY CALCULATE THE VALUE. IF THE ALIENS DEMANDED THE RAMSEY NUMBER FOR RED SIX AND BLUE SIX, HOWEVER, WE WOULD HAVE NO CHOICE BUT TO LAUNCH A PREEMPTIVE ATTACK.

Place 17 nodes on a circle and join all the chords of lengths 1, 2, 4, and 8.

The complementary graph consists of chords of lengths 3, 5, 7, and 11.
