## MATH 250 HANDOUT 14 - EQUIVALENCE RELATIONS

| Which of the following are equivalence relations? (Which are reflexive, symmetric, case (1) Let $x$ and $y$ be real numbers and define $x \sim y$ if $x - y \in \mathbf{Q}$ . | or transitive   |
|---|-----------------|
| R $S$ $T$   |                 |
| (2) Let $x$ and $y$ be rational numbers and define $x \sim y$ if $x - y \in \mathbf{Q}_{\geq 0}$ .  |                 |
| R $S$ $T$   |                 |
| (3) Let $x$ and $y$ be integers and define $x \sim y$ if $x - y \in d\mathbf{Z}$ .  |                 |
| R $S$ $T$   |                 |
| (4) Let S be the collection of all sets and say that $A \sim B$ if there is a bijection fr  | om $A$ to $B$ . |
| R $S$ $T$   |                 |
| (5) Let S be the collection of all sets and say that $A \sim B$ if there is a surjection f  | from $A$ to $B$ |
| R $S$ $T$   |                 |
| (6) Let S be the collection of all sets and say that $A \sim B$ if there is an injection if   | from $A$ to $B$ |
| R $S$ $T$   |                 |
| (7) Let $x$ and $y$ be real numbers and define $x \sim y$ if $x = 1$ or $y = 1$ .   |                 |
| R $S$ $T$   |                 |
| (8) Let $x$ and $y$ be real numbers and define $x \sim y$ if $x = 1$ or $y = -1$ .  |                 |
|   |                 |

(9) Let  $\mathbf{Q}[x]$  be the set of polynomials with rational coefficients. Say that  $f \sim g$  if their

derivatives are equal.
